

A soldier in full tactical gear, including a helmet and a light-colored jacket, is aiming a Beretta rifle. The soldier is positioned in a trench or similar structure, with a concrete wall on the left and a bright light source on the right. The rifle is a modern assault rifle with a Picatinny rail and a red dot sight. The Beretta logo is visible on the side of the rifle's receiver.

1301 TACTICAL

Product: The 1301 Tactical features an oversized charging handle, large textured bolt release and an oversized reversible safety button. The aggressive checkering on the fore-end and stock makes it easy to gain a secure grip even while wearing gloves. The 1301 Tactical features a robust and protected ghosting system which improves the target acquisition time. An interchangeable choke system allows for maximum flexibility based on use and needs.

Colors: Black, Flat Dark Earth and Olive Drab Green

Model	1301 TACTICAL
Caliber	12 Gauge
Stock	Fixed
Operating Principle	Gas operated
Threaded Barrel	Yes
Sights System	Ghost ring sights
Frame Material	Fiberglass reinforced polymer
Accessory Rail	MIL-STD-1913
Safeties	Manual safety
Fire Selector Positions	S-1
Reciprocating System	Yes
Ejection Side	Right
Magazine Type	Tube
Length (inches)	37.80
Barrel Length (inches)	18.70

m3^{A1} | OPERATION PACK

1 DUAL MODE

Lever to switch from semiautomatic to pump action for lethal and less lethal applications.

4 MODULAR BARRELS

Modularity for barrels (18,5" or 14,5") and magazines configuration (different types) with door-breaching device that can be installed on all barrels

m4 | OPERATION PACK

1 A.R.G.O. (Auto Regulating Gas Operating)

Two symmetrical gas ports placed under the barrel close to the combustion chamber. Both ports have a short stroke piston set back to discharge the hot gases at high pressure, in 100% safe and constant cycle, free from clogging by residuals.

4 GHOST RING SIGHT OPTIC FIBRE

The M4 is equipped as standard with a Ghost Ring Sight that is adjustable in windage and elevation and protected by side lugs in heat-treated steel. (Optic fibre dots, 1 red in front and 2 green in rear).

2 MULTI RAIL SYSTEM

The weapon's MIL-STD-1913 top Picatinny Rail means that it is possible to fit all types of targeting device (from optical sights to red dot sights, light intensifiers etc.). The new forearm with multi rail system allows the mount of mini-rails (5-slots) all over at 3/6/9/12 o'clock.

5 MODULAR BARRELS

Modularity for barrels (18,5" or 14") and magazines configuration (different types) with door-breaching device that can be installed on all barrels.

3 STOCK 5 POSITIONS

The M4 is also available with telescopic stock that can be adjusted in 5 positions. Easily removable to changing in Pistol Grip or standard stock.

6 BIGGER BOLT HANDLE AND BOLT RELEASE BOTTOM

Bigger Bolt Handle and Bolt Release Button for easy handling.

m4
BATTLE BROWN

CERAKOTE treatment

External Ceramic coating
(federal standard field grab) that confers the treated surfaces of the
M4 exceptional resistance against extreme environmental conditions,
erosion, corrosion and scratching.
