

BREACHER

12-GAUGE CARTRIDGES

The CENTANEX BREACHER range of 12-Gauge cartridges uses industry leading projectile technology to achieve unrivalled performance in tactical breaching operations, whilst negating the hazards of ricochet and over penetration.

The frangible projectile's kinetic energy transfer technology ensures effective and reliable destruction of locking mechanisms, dead bolts and hinges.

Cartridges are available in three different projectile weights and two different frangible materials to suit all breaching requirements from steel security doors to domestic residences.
